This Appeal is based in part on a constitutional property law question. See item 22 in Exhibit A. We have proven an unconstitutional flat rate tax is applied to all Corrales non-residential properties East of Loma Larga. This Appeal is for the question of whether this same unconstitutional tax is improperly in place for all residential properties East of Loma Larga.

We request this case be assigned to a judge that does not reside within Corrales to avoid any appearance of partiality in any decision that will be reached. NMRA 1-088 (G) "*No district judge shall sit in any action in which the judge's impartiality may reasonably be questioned under the provisions of the Constitution of new Mexico or the Code of Judicial Conduct...*"
